BREAKING NEWS

CROSBY PLANT FIRE

HCSO: TWO EMPLOYEES POSSIBLY HURT

59° 11:23

KMCO

- KMCO is a leading specialty chemical company serving the automotive, petroleum, industrial and agricultural markets. Approximately two thirds of the
- KMCO also specializes in (a) developing and manufacturing proprietary products including brake fluids, oilfield chemicals, glycols, antifreeze and cement grinding aids; (b) contract and proprietary blending; and (c) transloading.

Products

- Glycol

- KMCO is a processor of various glycol products including Monoethylene Glycol (EG, MEG), Diethylene Glycol (DEG), Triethylene Glycol (TEG), and Tetraethylene Glycol (TTEG)

- http://kmcollec.com/assets/docs/Triethylene_Glycol_30261.pdf

Products

- Antifreeze

- Our universal grade antifreeze/coolants meet the ASTM performance requirements of automotive, stationary equipment, and heavy duty trucks, and are registered in states requiring antifreeze permits. KMCO can provide custom blends as well as onsite technical support.

 - <http://kmcollec.com/assets/docs/DOT-4-Brake-Fluid.pdf>

Products

- Cement Grinding Products

- We currently offer one ASTM C-465 certified product that has been used by cement plants around the world. Customers have come to rely on KMCO's line of quality grinding aid products to increase their cement production efficiency.
- **KMCO 77XF:** An amine acetate based grinding aid product. KMCO 77XF meets all requirements outlined in ASTM C-465 for use as a cement processing additive.

Products

- Oilfield Products
 - KMCO manufactures a wide range of oilfield intermediates for formulation into products for the petroleum exploration, production, refining, chemical process, and hydrocarbon additives industries. Our current service area includes North America, Central America, South America, Asia, and Africa.
 - Our Product offering includes:
 - Demulsifiers
 - Desalting Aids
 - Slugging Agents
 - Corrosion Control Agents
 - Paraffin Inhibitors

Products

- Oilfield Products

- **KMCO OIL FIELD CHEMICALS SDS**
